

I. Tantárgyleírás

1. Alapadatok

1.1 Tantárgy neve

TRANSPORT INFRASTRUCTURE DESIGN PROJECT

1.2 Azonosító (tantárgykód)

BMEEOUVA-QP

1.3 Tantárgy jellege

Kontaktórás tanegység

1.4 Óraszámok

Típus	Óraszám / (nap)
Konzultáció	2

1.5 Tanulmányi teljesítményértékelés (minőségi értékelés) típusa

Félévközi érdemjegy

1.6 Kreditszám

6

1.7 Tárgyfelelő

név	Dr. Bocz Péter
beosztás	Egyetemi docens
email	bocz.peter@emk.bme.hu

1.8 Tantárgyat gondozó oktatási szervezeti egység

Út és Vasútépítési Tanszék

1.9 A tantárgy weblapja

<https://epito.bme.hu/BMEEOUVA-QP>

<https://edu.epito.bme.hu/course/view.php?id=3625>

1.10 Az oktatás nyelve

angol

1.11 Tantárgy típusa

Kötelező az építőmérnöki (BSc) szak Infrastruktúra-építőmérnöki ágazatán

1.12 Előkövetelmények

Infrastructure Study Project (BMEEODHAI41) - strong

Transportation Networks (BMEEOUVAI42) - strong

Road Design (BMEEOUVA-E1) - weak

Railway Design (BMEEOUVA-E2) - weak

1.13 Tantárgyleírás érvényessége

2023. szeptember 1.

2. Célkitűzések és tanulási eredmények

2.1 Célkitűzések

The aim of the course is to create complex and detailed plan documentations (road and railway design) applying the knowledge of transport planning of preliminary studies

2.2 Tanulási eredmények

A tantárgy sikeres teljesítése utána a hallgató

A. Tudás

1. will learn the steps of road and railway design,
2. will learn the steps of overlay design,
3. will learn the tools of traffic calming,
4. will learn the steps of station design.

B. Képesség

1. will be able to apply traffic calming,
2. will be able to determine the necessary design parameters of a roundabout,
3. will be able to design grade-separated crossing,
4. will be able to design the overlay of a road,
5. will be able to create the drawings of a railway track,
6. will be able to design a railway station,
7. will be able to express his thoughts in an orderly form orally, in writing and in standard planning work sections.

C. Attitűd

1. cooperates with the instructor during consultations,
2. is open to the professional use of IT tools,
3. strives to learn and skilfully use the tools and techniques required to solve the design problem,
4. strives for accurate and precise task solutions,
5. during the preparation of the tasks, he/she tries to produce work that is accurate and comprehensible, has an orderly appearance, that is expected at an engineering standard,
6. during the preparation of the tasks, he/she tries to implement the principles of sustainability, integrated planning and environmental awareness.

D. Önállóság és felelősség

1. is aware of the relevance of deadlines, is intent to keep them,
2. thinks through planning tasks and problems and solves them based on given resources,
3. accepts well-founded critical comments with an open mind,
4. applies the systematic approach in his/her thinking,
5. prepares well for the consultations in order to make the consultations smoother,
6. makes a responsible decision in relation to the frequency of appearances in consultation hours, in accordance with his abilities and prior preparation, in order to fulfil the tasks at the expected level.

2.3 Oktatási módszertan

During the consultation, assistance in solving planning tasks (for connecting previously learned elements into a project), verbal communication, and individual homework assignments prepared independently.

2.4 Részletes tárgyprogram

Week	Topics of lectures and/or exercise classes
1.	Railway: Railway design, preliminary site plan
2.	Road: Traffic calming
3.	Railway: Preliminary profile. Coordination of horizontal and vertical alignment
4.	Road: Consultation
5.	Railway: Typical cross sections
6.	Road: Steps of overlay design
7.	Railway: Consultation
8.	Road: Consultation
9.	Railway: Consultation
10.	Road: Design of the roundabout. Design of grade-separated crossing of the road and railway
11.	Railway: Preliminary study plan
12.	Road: Consultation
13.	Railway: Detailed plans of horizontal and vertical alignment
14.	Road: Summary

A félév közbeni munkaszüneti napok miatt a program csak tájékoztató jellegű, a pontos időpontokat a tárgy honlapján elérhető "Részletes féléves ütemterv" tartalmazza.

2.5 Tanulástámogató anyagok

Study-aids, guidelines and downloadable materials as specified in the class, technical specifications.

2.6 Egyéb tudnivalók

Due to the special nature of the subject, participation in consultation classes is not mandatory. Failure to participate in no way exempts the student either from solving the tasks to an appropriate standard, or from lack of knowledge presented in the consultation classes.

2.7 Konzultációs lehetőségek

The instructors are available for consultation during the classes.

Railway: Péter Bocz PhD. - bocz.peter@emk.bme.hu

Road: Szabolcs BARNA - barna.szabolcs@emk.bme.hu

II. Tárgykövetelmények

3. A tanulmányi teljesítmény ellenőrzése és értékelése

3.1 Általános szabályok

The assessment of the learning outcomes specified in clause 2.2. above and the evaluation of student performance occurs via two homeworks.

During the semester, there is a continuous partial performance evaluation (6 milestones).

Completion of the milestones is mandatory, and upon successful completion of the predetermined requirements, the student will receive a separate signature for each one.

Homeworks can only be submitted if all milestones have signatures. Otherwise, the course cannot be passed.

The student passes if both homeworks have received at least satisfactory (2) marks.

3.2 Teljesítményértékelési módszerek

Evaluation form	Abbreviation	Assessed learning outcomes
1. homework (road): with continuous partial performance evaluation (3 milestones)	HW1	A.1-A.3; B.1-B.4, B.7; C.1-C.6; D.1-D.6
2. home work (railway): with continuous partial performance evaluation (3 milestones)	HW2	A.1, A.4; B.5-B.7; C.1-C.6; D.1-D.6

A szorgalmi időszakban tartott értékelések pontos idejét, a házi feladatok ki- és beadási határidejét a "Részletes féléves ütemterv" tartalmazza, mely elérhető a tárgy honlapján.

3.3 Teljesítményértékelések részaránya a minősítésben

Abbreviation	Score
HW1	50%
HW2	50%
Sum	100%

3.4 Az aláírás megszerzésének feltétele, az aláírás érvényessége

Signature cannot be obtained.

3.5 Érdemjegy megállapítása

Grade	Points (P)
excellent (5)	$90 \leq P$
good (4)	$75 \leq P < 90\%$
satisfactory (3)	$62.5 \leq P < 75\%$
passed (2)	$50 \leq P < 62.5\%$
failed (1)	$P < 50\%$

3.6 Javítás és pótlás

All milestones have an additional deadline, (usually 1 week after the regular deadline) in accordance with the detailed semester schedule, in addition to paying the fee specified in the regulations. Only work submitted before the given deadline can receive a signature. Furthermore, no corrections can be made after the additional

deadline, so if the submitted work does not meet the minimum requirements, it cannot get a signature.

Homework can be handed in late (usually 1 week after the regular deadline) in accordance with the detailed semester schedule, in addition to paying the fee specified in the regulations. Submitted and accepted homework can be corrected free of charge by the last deadline.

3.7 A tantárgy elvégzéséhez szükséges tanulmányi munka

Activity	Hours/semester
consultations	$14 \times 2 = 28$
prepare of the homeworks	$76 \times 2 = 152$
Sum	180

3.8 A tárgykövetelmények érvényessége

2024. január 26.
